

I am a XM radio subscriber and I urge you to resist the attempts by the NAB to attack it. I listen to XM radio because broadcast radio is unlistenable with close to 50% of radio time is given over to commercials and other non programming activities. Broadcast radio is unlistenable. So unlistenable that I, a republican, would now support legislation that would restrict the amount of air time permitted for commercials. XM radio gives me programming without the mind numbing commercials. I know the NAB used to restrict member stations to 18 minutes of commercials per hour. And that restriction was relaxed years ago.

KEEP XM RADIO running. If you haven't already reject NAB's petition 04-160.

Sincerely,

Richard Johnson
